## CONFERENCE AT A GLANCE

### TUESDAY, NOVEMBER 12

9:00 a.m. – 3:30 p.m.	Golf Tournament at Donald Ross Course, French Lick Resort (Shotgun start at 10:00 a.m.), <b>Sponsored by Duke Energy</b>
9:00 a.m. – 12:00 p.m.	Clay Pigeon Shooting at Sporting Clay's Range at the West Baden Stables, <b>Sponsored by JM Test Systems</b>
9:00 a.m. – 12:00 p.m.	Horseback Riding at The Stables, French Lick Resort, <b>Sponsored by Indiana Michigan Power</b>
11:00 a.m. – 1:00 p.m.	Lunch available for golfers at Hagen's Club House restaurant
12:00 p.m.	Lunch for Clay Pigeon Shooting and Horseback Riding attendees at West Baden
1:30 – 4:00 p.m.	Exhibitor Registration and Setup — <i>Hoosier Business Center &amp; Expo Hall</i>
2:00 – 2:30 p.m.	Scholarship Orientation — <i>Windsor C</i>
2:00 – 7:30 p.m.	General Conference Registration — <i>Hoosier Business Center</i>
5:00 – 8:00 p.m.	Welcome Reception, <b>Sponsored by USIC</b> — <i>Expo Hall</i>

### WEDNESDAY, NOVEMBER 13

7:00 a.m. – 5:00 p.m.	Continued Conference Registration — <i>Hoosier Business Center</i>
7:30 – 8:30 a.m.	Opening Breakfast, <b>Sponsored by Citizens Energy Group</b> — <i>Hoosier Ballroom</i>
8:30 – 9:45 a.m.	Welcome and Keynote Speaker, <b>Captain Charlie Plumb, Sponsored by Verizon</b> — <i>Hoosier Ballroom</i>
9:30 a.m. – 6:30 p.m.	Exhibit Hall Open — <i>Expo Hall</i>
10:10 – 11:00 a.m.	SESSION BLOCK 1 — <i>Windsor/Clifton</i>
11:10 a.m. – 12:00 p.m.	SESSION BLOCK 2 — <i>Windsor/Clifton</i>
12:00 – 1:00 p.m.	Lunch, <b>Sponsored by Miller Pipeline</b> — <i>Hoosier Ballroom</i>
12:30 – 1:45 p.m.	Featured Speaker, <b>Eric Giguere, Sponsored by CenterPoint Energy</b> — <i>Hoosier Ballroom</i>
2:10 – 3:00 p.m.	SESSION BLOCK 3 — <i>Windsor</i>
3:10 – 4:00 p.m.	SESSION BLOCK 4 — <i>Windsor</i>
4:30 – 6:00 p.m.	Door Prize Reception, <b>Sponsored by BOSS811</b> and Sponsor Recognition, <b>Sponsored by Indiana 811</b> — <i>Expo Hall</i>

### THURSDAY, NOVEMBER 14

8:00 – 11:00 a.m.	Continued Conference Registration — <i>Hoosier Business Center</i>
8:00 – 8:50 a.m.	Breakfast — <i>Hoosier Ballroom</i>
9:00 – 9:50 a.m.	SESSION BLOCK 5 — <i>Windsor</i>
10:10 – 11:00 a.m.	SESSION BLOCK 6, All-Conference Session — <i>Hoosier Ballroom</i>

## REGISTRATION NOTES

### Registration Hours

Tuesday, 2 – 7:30 p.m.; Wednesday, 7 a.m. – 5 p.m.; and Thursday, 8 – 11 a.m.

### Exhibitor Registration and Setup

Tuesday, 1:30 – 4 p.m.

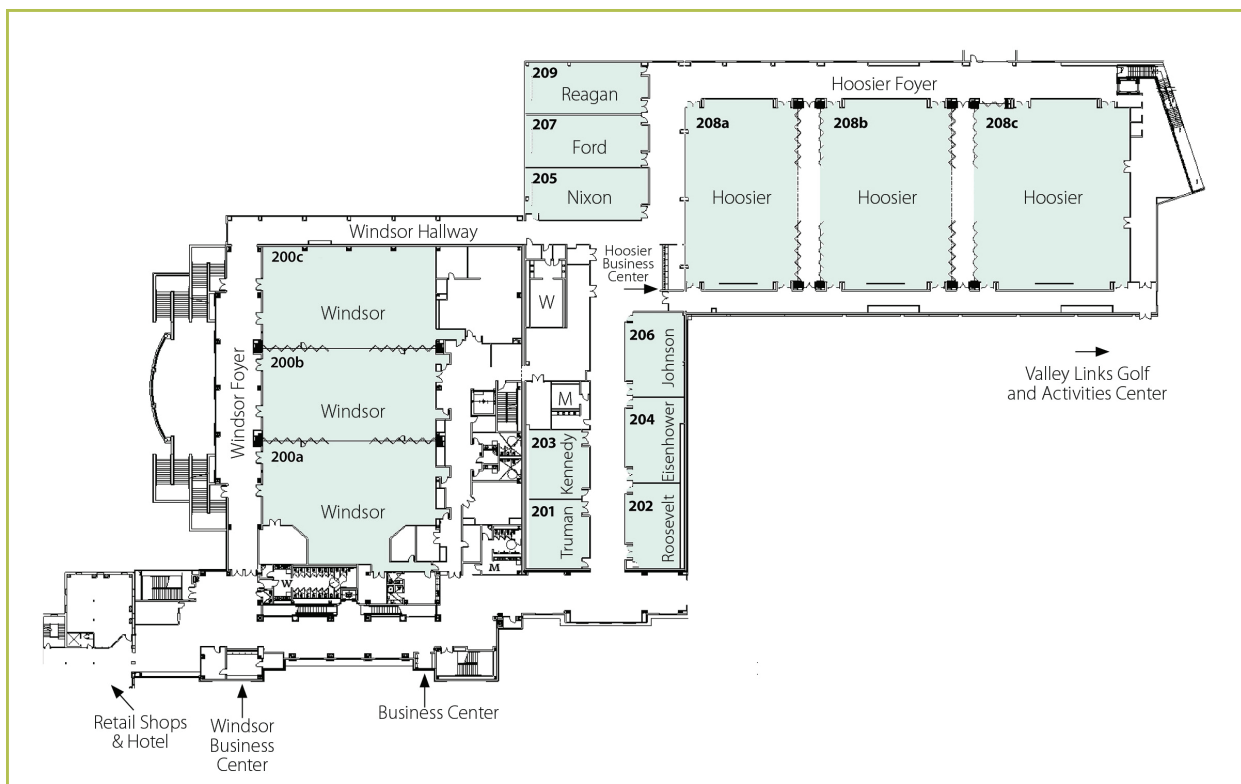

### Exhibitor Breakdown Hours

Wednesday, 6:00 – 6:30 p.m.

**SAVE THE DATE!**

**2025 MWDPTC**  
NOVEMBER 11-13

## TUESDAY, NOVEMBER 12

- \*9:00 a.m. – 3:30 p.m. Golf Tournament at Donald Ross Course, French Lick Resort (Shotgun start at 10:00 a.m.), **Sponsored by Duke Energy**
- \*9:00 a.m. – 12:00 p.m. Clay Pigeon Shooting at Sporting Clay's Range at the West Baden Stables, **Sponsored by JM Test Systems**
- \*9:00 a.m. – 12:00 p.m. Horseback Riding at The Stables, French Lick Resort, **Sponsored by Indiana Michigan Power**
- 11:00 a.m. – 1:00 p.m. Lunch available for golfers at Hagen's Club House restaurant
- 12:00 p.m. Lunch for Clay Pigeon Shooting and Horseback Riding attendees at West Baden
- 1:30 – 4:00 p.m. Exhibitor Registration and Setup  
*Hoosier Business Center & Expo Hall*
- 2:00 – 2:30 p.m. Scholarship Orientation  
*Windsor C*
- 2:00 – 7:30 p.m. General Conference Registration  
*Hoosier Business Center*
- 5:00 – 8:00 p.m. Welcome Reception, **Sponsored by USIC**  
*Expo Hall*

\*Exclusively for pre-registered attendees

## WEDNESDAY, NOVEMBER 13

7:00 a.m. – 5:00 p.m. Continued Conference Registration

*Hoosier Business  
Center*

7:30 – 8:30 a.m. Opening Breakfast, **Sponsored by Citizens Energy Group**

*Hoosier Ballroom*

8:30 – 9:45 a.m. Welcome and Keynote Speaker, **Captain Charlie Plumb,  
Sponsored by Verizon**

*Hoosier Ballroom*

Captain Charlie Plumb, a highly decorated U.S. Navy veteran, former prisoner of war and highly sought-after international speaker, will kick off the 2024 Midwest Damage Prevention Training Conference (MWDPTC) with his keynote speech. Captain Plumb's story is one of profound resilience and leadership.

Captain Plumb's military career is marked by extraordinary bravery and endurance. During the Vietnam War, on his 75th combat mission, his F-4 Phantom jet was shot down over enemy territory. He was captured and imprisoned in a small, 8-by-8-foot cell, where he endured six years of torture and isolation as a prisoner of war.

Throughout this harrowing ordeal, Captain Plumb faced unimaginable challenges but emerged with a deep understanding of the human spirit, the power of perseverance, and the importance of leadership in the face of adversity.

Now, as a speaker, Captain Plumb has shared his hard-earned insights with more than 5,000 audiences worldwide. His keynote is not just a recounting of his experiences, but a compelling exploration of the choices that define us in the most difficult circumstances. Attendees will gain invaluable perspectives on overcoming obstacles, fostering teamwork and leading with integrity—principles that are directly applicable to both personal and professional atmospheres.

9:30 a.m. – 6:30 p.m. Exhibit Hall Open

*Expo Hall*

10:10 – 11:00 a.m. **Session Block 1 — All Sessions Sponsored by Citizens Energy Group**

**Safety Pre-Jobs for Natural Gas Construction – Windsor A**

*Presenter: Evan Hamilton, Director of Natural Gas Operations,  
The Hydaker-Wheatlake Company*

Managing physical and mental safety hazards is critical for ensuring job site safety and efficiency. The Hydaker-Wheatlake Company has developed a unique safety pre-job approach that not only addresses physical hazards, but also focuses on personal risks, using a detailed, score-based risk assessment and mitigation process.

In this session, Evan Hamilton, Director of Gas Operations at Hydaker-Wheatlake Company, will showcase how the company has integrated a Crew Resource Management (CRM) developed by NASA and Operational Risk Management (ORM) used in aviation, military, and medical fields into their safety protocols to create a comprehensive approach to risk management. By combining these two methodologies, Hydaker-Wheatlake's safety process addresses both physical and mental risks, offering a well-rounded approach that helps teams in the natural gas construction industry operate more safely and effectively.

### **The Journey to 50 in 5 With the Common Ground Alliance - Windsor B**

*Presenter: Khrysanne Kerr, Vice President of Marketing and Outreach, Common Ground Alliance*

Improving damage prevention efforts in the U.S. requires a multi-faceted approach that integrates technology, education, regulation and collaboration among stakeholders. A primary challenge facing the industry is preventing damage to underground utilities during excavation and construction. This session, led by Common Ground Alliance's Khrysanne Kerr, will explore how advanced technologies—such as GPS mapping, ground-penetrating radar and predictive analytics—can enhance the accuracy of locating underground infrastructure, while also emphasizing the importance of education and training programs, as well as public awareness campaigns that equip workers and contractors with the knowledge of risks and best practices for safe digging. Attendees will also learn how collaborative efforts between utility companies, government agencies and private contractors are critical for establishing standardized safety procedures within the industry. Discover how these combined efforts can strengthen damage prevention, protect vital infrastructure, and aid in the industry's 50 in 5 damage reduction goal to reduce underground damages by 50% over the next five years.

### **Data-Driven Insights for Enhanced Damage Prevention Management - Windsor C**

*Presenters: Brian Peters, Chief Product Officer, KorTerra; Jason Poyser, Senior Director of Utilities, Metronet*

Organizations are increasingly looking to leverage data insights to improve decision-making, and the damage prevention industry is no exception. With vast amounts of data available, identifying recurring patterns can significantly impact decisions related to risk, staffing and operational efficiency, ultimately helping to reduce damages. In this session, experts from KorTerra and Metronet will lead an in-depth discussion on how data can transform management practices. Attendees will explore a real-world case study of how Metronet effectively utilized data to shape its damage prevention strategy, resulting in substantial cost savings and valuable tax deductions. This session will provide practical insights and actionable strategies for harnessing the power of data to optimize performance and enhance organizational decision-making in damage prevention.

### **Managing a Large-Scale Underground Utility Project With Limited Resources - Clifton A/B**

*Presenter: Kevin Blair, Engineering Supervisor, Columbus City Utilities*

Discover how Columbus City Utilities successfully navigated a complex two-to-three-year fiber-to-home project that covered 100% of the city and 85% of the county. This session will explore how the utility maintained close communication with engineering and consulting firms, fostered strong relationships with in-state and out-of-state boring companies, and implemented efficient practices like white lining to reduce unnecessary markings and save valuable time. Join us to discover how a small project team of just three staff members successfully kept operations running smoothly on a large-scale project. Additionally, attendees will gain insights into how incorporating pictures and files into dig ticket requests can streamline the process for both utility locators and contractors, enhancing 811 system efficiency and preventing unnecessary damages.

11:10 a.m. – 12:00 p.m.

**Session Block 2 — All Sessions Sponsored by Citizens Energy Group**

**Unlocking the Future of Infrastructure: How AI is Revolutionizing Utility Mapping & the Subsurface Ecosystem - Windsor A**

*Presenters: Jemmie Wang, Partner, AcretivPartners, LLP; Kaustubh Page, Senior Director of Product Management, 4M Analytics*

This session will explore the critical need for digital transformation in subsurface utility mapping and asset management to advance our nation's infrastructure. As infrastructure funding surges and civil engineer shortages persist, traditional methods like manual utility record research are increasingly inadequate, leading to fragmented and inaccurate data that cause delays, cost overruns and create safety risks. This session will delve into why accelerating digital transformation is crucial, driven by the complexity of subsurface ecosystems and evolving infrastructure demands. Jemmie Wang with AcretivPartners, LLP and Kaustubh Page with 4M Analytics will discuss real-world examples of how adopting technological innovations and fostering stakeholder collaboration can provide a competitive edge, with a focus on how Artificial Intelligence (AI) can enhance efficiency, maximize ROI and mitigate risk associated with digging near underground utilities.

**The Power of Don't - Windsor B**

*Presenter: John Brix, International Safety Speaker*

The human psyche is divided into two parts – the conscious and subconscious mind – that must work together for true success on the job. In “The Power of Don't,” former police officer and oil and gas industry professional John Brix will share his innovative and progressive philosophies about the conscious and subconscious mind that can help develop more efficient safety programs, increase the learning potential of workers, and cultivate an emotionally intelligent culture that is productive and adaptive for all. Participants in this session will learn how to foster an “Always Safe” philosophy, manage stress, and effectively communicate through tools that lengthen long-term memory recall, increase the success of learning, and decrease the time spent on training and information delivery.

**Damage Prevention Breakthroughs: Real-World Examples Using Collinear Fiber-Optic Sensing - Windsor C**

*Presenter: Geoff Roberts, Advisory Board Member, FiberSense*

The Internet of Things (IoT) has frequently disappointed with its high costs, significant maintenance requirements and limited insights into underground networks. This session will highlight how collinear sensing using existing fiber-optic networks provides effective solutions to these issues. Fiber-optic sensing turns fiber-optic cables into a massive, highly sensitive monitoring array that offers real-time situational awareness and actionable intelligence for a variety of underground assets. Attendees will gain insights into practical applications of fiber-optic sensing and Sensing as a Service, learning from real-world examples of how this technology has led to a more than 50% reduction in damage events within the first year of deployment. Discover how this innovative approach can address persistent challenges and enhance network management.

**Cross-Bores: Dangers and Prevention - Clifton A/B**

*Presenter: Saul Lopez, Vice President of Business Development, Pipe View America*

Cross-bores can remain undetected for decades, posing an unknown danger to the integrity of utility facilities and potentially leading to serious accidents. This session will explore how well-established construction practices can prevent these hidden threats and keep projects on track toward achieving the 50 in 5 damage reduction goal presented by Common Ground Alliance in 2023

that aims to reduce underground damages by 50% over the next five years. Attendees will gain valuable insights into strategies and techniques that enhance safety and prevent cross-bores, ensuring more reliable and secure utility installations.

12:00 – 1:00 p.m.  
*Hoosier Ballroom*

Lunch, **Sponsored by Miller Pipeline**

12:30 – 1:45 p.m.  
*Hoosier Ballroom*

Featured Speaker, **Eric Giguere, Sponsored by CenterPoint Energy**

### **The Buried Truth Uncovered**

Take advantage of the opportunity to listen to Eric Giguere, a 48-year-old former construction worker from Phelps, N.Y., share his story of how he was buried alive while working in a trench, which fueled his dedication to advocating for workplace safety. Eric Giguere's powerful story offers invaluable lessons in safety and risk management. Drawing from his firsthand experience, Eric has become a leading voice in safety education, emphasizing the critical importance of damage prevention and safety protocol.

Eric combines gripping personal anecdotes with practical, actionable advice that resonates with professionals across the industry. His engaging and motivational style ensures that attendees not only hear his message but internalize it, leaving them equipped to implement stronger safety measures within their own organizations. Eric's session at the MWDPTC promises to be a memorable and impactful experience, inspiring attendees to prioritize safety and take proactive steps to prevent accidents before they happen. Once you have heard Eric's story, damage prevention and safety will be more important to you than ever before.

2:10 – 3:00 p.m.

## **Session Block 3 — All Sessions Sponsored by Citizens Energy Group**

### **Demystifying the INDOT Utility Coordination Process: Damage Prevention Basics - Windsor A**

*Presenters: Josshe Palm, Utility & Railroad Engineer, Indiana Department of Transportation; Daniel McMurtry, Utility Engineer, Indiana Department of Transportation*

This session will provide utility representatives with an in-depth explanation of the Indiana Department of Transportation's (INDOT) utility coordination process, covering the roles and responsibilities of a utility coordinator and oversight agent, along with common mistakes to avoid when responding to notices. It will also address key considerations for utility locating, when to request Subsurface Utility Engineering (SUE), and how to work effectively with INDOT on relocation adjustments. Attendees will also learn best practices for responding to utility notices like Initial Notices and Work Plan Requests, while avoiding common work plan errors. By the end, participants will understand how to protect their utilities during construction and ensure successful coordination with INDOT for project success.

### **The Importance of Mentoring in Damage Prevention - Windsor B**

*Presenter: Jeremy Wyatt, Director of Quality and Training, Miller Pipeline*

This session will explore the critical role of mentoring in retaining new employees within the damage prevention industry. With workforce challenges and the upcoming retirement of many long-term employees, a structured mentoring program can keep new hires engaged while helping them develop a clear career path. It also provides seasoned professionals a way to pass on their valuable knowledge and expertise, ensuring that essential skills in damage prevention are preserved. Attendees will learn how mentoring fosters confidence, builds industry-specific skills, and supports the long-term success of their teams and organizations.

### **A Comprehensive Look at Private Utility Locates - Windsor C**

*Presenters: Mike Iadanza, Senior Vice President, Mason Private Locating, LLC; Jake Mason, President & Managing Partner, Mason Private Locating, LLC*

In this informative session, experts from Mason Private Locating will delve into the critical distinctions between public and private utility locates, addressing a common oversight among project managers who typically rely solely on 811 for utility marking. While 811 provides valuable information about public utilities, many underground utilities—such as sewer laterals, private power feeds and water services—are often unmarked and overlooked.

This session will explore the nuances of underground infrastructure, including scenarios involving hospitals, universities and manufacturing facilities, highlighting the importance of being aware of utilities you may not even know exist. Join the Mason Private Locating team as we discuss the necessity of collaborating with both 811 and private utility locating services. You'll gain insights that can enhance project efficiency and ensure the safety and success of your next venture. Don't miss this opportunity to elevate your understanding of utility locates!

3:10 – 4:00 p.m.

### **Session Block 4 — All Sessions Sponsored by Citizens Energy Group**

#### **Collaborating to Reduce the Burden of 811 Tickets on Highway Projects - Windsor A**

*Presenters: Kenny Franklin, Senior Project Manager, Parsons Transportation Group; Aaron Day, Utility & SUE Coordinator, American Structurepoint, Inc.*

This session will examine how new and emerging technologies can improve collaboration for cost-effective and safe construction practices, addressing the industry's ongoing concern of the overburden of 811 tickets. By exploring opportunities for utilities and highway project owners to collaborate through viable utility investigations and verifications, this session will identify ways to reduce ticket demand. Participants will also learn about initiatives in other states that are mapping utilities to geospatial coordinates using advanced technologies and engineering methods. This interactive session will encourage participant engagement and discussion on solutions to these industry-wide challenges.

#### **The Underserved Contractor: We Need Technology, Too - Windsor B**

*Presenter: Baker Wallace, Vice President, Norfield*

Excavators are at the heart of the 811 notification process, submitting tickets and operating heavy machinery, while facing significant risks in the field. Many excavators lack access to advanced tools that enhance safety and minimize costly damages. In this session, Norfield will explore innovative, purpose-built solutions specifically designed for excavators, showcasing cutting-edge technology that streamlines operations and improves safety outcomes. Participants will be invited to share their real-world challenges, fostering a collaborative dialogue that identifies key issues and explores how tech providers like Norfield are stepping up to deliver tailored solutions. Attend this session to help shape the future of excavation safety and efficiency, ensuring that every excavator is equipped for success.

#### **Why Ask Why? How We Can Prevent Utility Damage Through Root Cause Analysis - Windsor C**

*Presenter: Brent Smith, Business Development Manager, Specialties Company, LLC*

This session is designed to enhance your ability to prevent recurring utility damage incidents by identifying and addressing the fundamental causes of failures. Participants will delve into the "5 Why" root cause analysis technique, exploring practical examples that uncover underlying issues and provide actionable strategies for implementing effective solutions. Whether you work in field operations, project management, or safety and health, this presentation

will equip you with essential tools to improve incident prevention, and ensure the integrity of your operations. Transform your approach to damage prevention and foster a culture of continuous improvement within your organization.

4:30 – 6:00 p.m.  
*Expo Hall*

Door Prize Reception, **Sponsored by BOSS811** and  
Sponsor Recognition, **Sponsored by Indiana 811**

## THURSDAY, NOVEMBER 14

8:00 – 11:00 a.m.  
*Hoosier Business  
Center*

Continued Conference Registration

8:00 – 8:50 a.m.  
*Hoosier Ballroom*

Breakfast

9:00 – 9:50 a.m.

### **Session Block 5 — All Sessions Sponsored by Citizens Energy Group**

#### **The Storytelling Brain - Windsor A**

*Presenter: John Brix, International Safety Speaker*

Building on the insights from “The Power of Don’t” session presented by John Brix on Wednesday, this session delves into the concept of ‘rumination’—a thought process that contributes to long-term stress and impacts our overall well-being. While “The Power of Don’t” offers participants a new understanding of the human brain’s ability to process and analyze information, “The Storytelling Brain” focuses on how our thought patterns can perpetuate stress and hinder our mental health. Participants will learn how to recognize and confront rumination, a common cognitive pattern that leads to prolonged stress. Whether or not you participated in John Brix’s Wednesday session, this presentation will equip you with practical techniques to interrupt negative thought patterns, fostering mental well-being and strengthening emotional resilience for an improved quality of life.

#### **Indiana 811 Member Utility Session - Utilizing Exactix - Windsor B**

*Presenters: Carly Dunsmore, Member Services Specialist, Indiana 811;  
Jill Gast, Director of Operations and Business Intelligence, Indiana 811*

This session is tailored specifically for utility companies that own or operate underground facilities in Indiana and are members of Indiana 811. Attendees will gain valuable insights into leveraging the exclusive tools available to members, including a walkthrough of how to manually enter positive responses for locate requests within the Exactix system. Join us to explore best practices, streamline your operations and ensure compliance with state regulations. Whether you’re new to Exactix or looking to optimize your processes, this session will provide the knowledge and guidance you need to make the most of Indiana 811’s member-specific features.

10:10 – 11:00 a.m.  
Hoosier Ballroom

## Session Block 6

### All-Conference Session on 811 Law Changes You Need to Know About

*Presenters: Jeremy Comeau, Assistant General Counsel, Indiana Utility Regulatory Commission; Steve Allen, Executive Director of Pipeline Safety, Energy Worldnet, Inc.; Kurt Youngs, President, Youngs Excavating, Inc.*

Earlier this year, the Indiana General Assembly passed, and Governor Holcomb signed into law, changes to the 811 Law, Indiana Code chapter 8-1-26, that will take effect January 1, 2025. This final session of the conference will explore the background and rationale behind these changes, and detail their implications for industry stakeholders. Participants will gain a comprehensive understanding of the new provisions and will be equipped with essential information needed to navigate the upcoming changes. Don't miss this opportunity to stay informed about the 811 Dig Law.

## 2024 MIDWEST DAMAGE PREVENTION TRAINING CONFERENCE SPONSORS & EXHIBITORS

### 502 Equipment

502 Equipment offers a range of exceptional equipment: from GapVax and PipeHunter sewer cleaners and hydro excavators to Aries pipeline inspection and rehabilitation equipment. Find the critical tools you need for pipe cleaning, pipe rehab and hydro excavation. We distribute durable, high-performing brands, including Warthog sewer nozzles and tools. Additionally, we supply a suite of HydraFlex products, featuring the powerful Ripsaw nozzle. [www.502equipment.com](http://www.502equipment.com)

### 811 Outdoors

For over 20 years, the goal of 811 Outdoors has been to take the damage prevention message to outdoor audiences around the country. "The Direction," now presented by 811 Outdoors, delivers the 811-before-you-dig message to millions of television viewers through its various distribution channels, which include Pursuit Channel, Discovery Channel, Mossy Oak Go, and many other networks and digital platforms. 811 Outdoors is the vision of fisherman, landscaper, TV personality, and 811 ambassador extraordinaire, Mark Stowe. [www.thedirectiontv.com](http://www.thedirectiontv.com)

### AES Indiana

AES Indiana, an AES Company, provides retail electric service to more than 500,000 residential, commercial, and industrial customers in Indianapolis, as well as portions of other Central Indiana communities surrounding Marion County. During its long history, AES Indiana has supplied its customers with some of the lowest-cost, most reliable power in the country. For more information about how AES Indiana is accelerating the future of energy, visit [www.aesindiana.com](http://www.aesindiana.com).

### Badger Infrastructure Solutions

Badger Infrastructure Solutions is the industry leader in non-destructive hydro excavation. The Badger way means relentlessly focusing on our customers' needs by providing tailored solutions that are always safe and add value throughout the sales and services delivery process. [www.badgerinc.com](http://www.badgerinc.com)

### Best Equipment Company

Best Equipment Company is a family-owned and -operated company based out of Indianapolis, Ind. Having specialized in environmental equipment solutions since 1917, Best Equipment has a long history of providing Indiana, Ohio, Kentucky and now Michigan with environmentally sound, efficient and budget-saving solutions. Best Equipment is proud to provide top-notch service and support in the refuse and recycling, storm water and sewer, sweeping and litter control, yard waste and turf control, and hydro excavation industries. [www.bestequipmentco.com](http://www.bestequipmentco.com)

### BOSS811

BOSS811 is a leading one call locate ticket management solution for damage prevention, trusted by energy, utility and telecom companies across the country. This advanced SaaS platform from BOSS Solutions is built on cutting-edge technology and empowers you with business intelligence and analytics to efficiently handle 811 tickets, mitigate risk and ensure compliance, backed by premier US-based support. Learn more at [www.boss811.com](http://www.boss811.com).

**BP Pipelines (North America), Inc.**

BP Pipelines (North America) Inc. moves and delivers the energy that helps serve both the Midwest and Pacific Northwest regions. BP Pipelines (NA) manages more than 3,200 miles of pipelines. It also has ownership stake in close to 1,500 miles of additional pipelines. The business currently maintains 70 above-ground storage tanks with a combined capacity of about 5.3 million barrels. For more information, please contact us at [bbp.com](http://bbp.com).

**Buckeye Partners**

The Buckeye Pipeline Company was organized to transport oil from fields near Lima, Ohio, to standard refineries. We transport, store, and process/market liquid petroleum products. [www.buckeye.com](http://www.buckeye.com)

**C&S Solutions**

With over 25 years of experience in selling, training and service in the utility locating inspection cameras industry, C&S Solutions is your full-service distributor. We are your partner in knowing what's in the ground before you dig. [www.locatorguys.com](http://www.locatorguys.com)

**CASE Construction, Inc.**

CASE Construction, Inc. is a full-service site development construction company providing site excavation, building and site concrete, and asphalt paving service for central and southern Indiana. We specialize in the repair of sidewalk and roadway paving disturbed by the installation and repairs of underground utilities. [www.caseconstruction.com](http://www.caseconstruction.com)

**CenterPoint Energy**

CenterPoint Energy, Inc., headquartered in Houston, Texas, is a domestic energy delivery company that includes electric transmission and distribution, natural gas distribution and energy services operations. With more than 8,900 employees, CenterPoint Energy and its predecessor companies have been in business for more than 140 years. [www.centerpointenergy.com](http://www.centerpointenergy.com)

**Cirkul**

What is Cirkul? Cirkul's innovative bottle allows you to flavor your water sip by sip. Go from drinking plain water, to drinking your new favorite beverage, and back to drinking plain water with a turn of the flavor dial. Zero calories, no sugar, delicious hydration. [www.drinkcirkul.com](http://www.drinkcirkul.com)

**Citizens Energy Group**

In 1887, Indianapolis civic leaders came up with the idea of operating a natural gas company as a Public Charitable Trust, solely for the benefit of customers and the community. Today, this Trust lives on as Citizens Energy Group, a broad-based utility service company, providing natural gas, thermal energy, water, and wastewater services to about 900,000 people and thousands of businesses in the Indianapolis area. At Citizens, our vision is to enhance the well-being of our customers, communities, and employees by providing unparalleled service now and for generations to come. [www.citizensenergygroup.com](http://www.citizensenergygroup.com)

**Countrymark Refining and Logistics, LLC**

Countrymark is an American-owned oil exploration, production, refining and marketing company. The company's oil exploration and production efforts are located in Indiana, Illinois, Kansas and Texas. The company refinery is located in southwestern Indiana, and a 238-mile private pipeline carries finished fuels economically and safely from the refinery to privately owned fuel terminals located along the pipeline route. From these terminals, local cooperatives load Countrymark proprietary fuels that are delivered to farms, fleets and families in Indiana, Illinois, Michigan, Ohio and Kentucky. [www.countrymark.com](http://www.countrymark.com)

**Duke Energy Indiana**

Duke Energy Indiana, a subsidiary of Duke Energy, provides about 6,800 megawatts of owned electric capacity to approximately 900,000 customers in a 23,000-square-mile service area, making it Indiana's largest electric supplier. [www.duke-energy.com](http://www.duke-energy.com)

**Eckart Supply**

Eckart Supply is a full-service distributor of electrical, lighting, plumbing, HVAC and data communication products. We are also a premier supplier of Milwaukee Tools. With 19 locations stretching from Indiana to Atlanta and beyond, Eckart has you covered! [www.eckart.com](http://www.eckart.com)

**FlagShooter**

The FlagShooter is a flag insertion tool that was developed to bring safety and efficiency to the damage prevention industry. The FlagShooter has simplified this task by allowing an operator to spray paint at the squeeze of the trigger and to install a flag with one easy motion. FlagShooter is your one source for all of your locating supply needs. [www.flagshooter.com](http://www.flagshooter.com)

**Fluid Waste Services, Inc.**

For 35 years, Fluid Waste Services has worked to set the standard for professionalism, quality, and integrity in the utility maintenance industry. FWS is a women-owned business with a field crew of experts who combine over 350 years of experience in our industry. FWS specializes in hydro excavation, jet/vac pipeline cleaning, CCTV, and a number of other services. [www.fluidwaste.com](http://www.fluidwaste.com)

**Fusion Safety**

Fusion Safety provides OSHA compliance services. These services include written procedures and programs, OSHA training, site and facility audits, EHS management for companies of all sizes, confined space standby/rescue teams and air monitoring. [www.fusionsafety.com](http://www.fusionsafety.com)

**GPRS**

GPRS strives for 100% subsurface damage prevention, boasting a 99.8% accuracy rate nationwide. Our 500+ project managers employ the Subsurface Investigation Methodology (SIM) for utility mapping, concrete scanning, sewer camera inspection, and 3D laser scanning, ensuring consistent, high-quality results. [www.gp-radar.com](http://www.gp-radar.com)

**Graycor**

2021 marked Graycor's 100th year in business. "Building Something More" since its foundation in 1921, Graycor has been on an interesting and inspiring journey, adapting to stand the test of time. Guided by its core values, Graycor offers its clients a best-in-class construction experience from coast to coast. [www.graycor.com](http://www.graycor.com)

**GridHawk, LLC**

GridHawk is the premier provider for utility services, specializing in facility location, advanced locating, and watch and protest. At GridHawk, LLC, it is our mission to provide the highest quality service, while developing meaningful relationships with our clients to ensure the safety of the surrounding communities we serve to protect. Above and beyond! [www.gridhawk.com](http://www.gridhawk.com)

**Groeber**

At Groeber, we sell, stock, and advise on natural gas distribution products from the pipeline to the meter. We are a certified women-owned business through WBENC and collaborate with utilities and contractors to enhance their project's success. We also support customers with team training and equipment maintenance services. Groeber, operates warehouses in Minnesota, Illinois, Kansas, and Texas.
